

You've seen me the last 40-plus years telling you stories from around Middle Tennessee.

Now I have the opportunity to tell you your stories.

My whole idea - with your help - is to feature **Real People** who have done extraordinary or unusual things. It may be a **World War II** veteran with a remarkable story or a person with a powerful background of overcoming that will encourage others.

It may be an athlete who has battled back from adversity to become an inspiration.

I'm also looking for people with unusual jobs or hobbies, maybe something I can try.

You know how much I love to be out, be with people, and tell these kind of stories. It's what I truly love and I want to make difference and enjoy time in the community.

You're still going to see me on Channel 4. I still get a thrill when I land at a football stadium on Friday night and meeting those fans. I plan to continue flying on Friday nights.

If you have any ideas on who I can profile, fill out the form to the right with your suggestions.

Together we can show that there are **Real People** all around Middle Tennessee and southern Kentucky.

A handwritten signature in black ink, appearing to read "Rudy". The signature is written in a cursive, flowing style with a long, sweeping tail that loops back under the main part of the name.
